

Armstrong Powerhouse Update Log

Last updated - 2019-02-15

If your 'Downloads' area tells you a pack has been updated but it is not listed here, the update is not of relevance to you as a customer and is most likely a housekeeping exercise on our part.

SPECIAL NOTE: On 2019-01-06, all packs were updated with a slightly amended installer. If you experience no issues installing, you do not need to re-download.

The Extra Stock must also be re-downloaded if there is a tick in the relevant column.
